

The Strategic Consulting Group's consultants have the hands-on experience and in-depth knowledge of Ontario's healthcare system to help your organization overcome information technology, business or governance challenges. Our team provides strategic and practical solutions, we work with a range of professional health, residential care facilities and Not For Profit healthcare organizations across Ontario. Our approach is to develop strategies by using Predictive Analytics, Strategic Visual Harvesting and Cognitive Diversity. Integrating the three, hyper focuses a team, eliminates social influences, inherent biases, and delivers highly predictable and accurate healthcare delivery solutions.

From one on one coaching, workshops, retreats and consulting mandates our services are realistic with measurable results, geared to your schedule, needs and challenges.

Our Approach

We use a consultative approach and targeted business strategies to capture market share for our clients.

We provide strategic solutions for optimum clinic capacity, information and communication architecture and business continuity plans to mitigate possible disruptions.

We work alongside management to address MOHLTC or RHRA compliance issues, PHIPA, PIPEDA, Information Security, Risk Management, QIP and Lean 6 Sigma.

We use, predictive analytics, psychographic and demographic data to help optimize EMR/EHR/CRM, services and to define highly favourable locations for clinics, retirement homes and long term care facilities.

What Makes Us Unique

Our solutions include visual representations for better internal and external communication and our plans incorporate practical tools that ensures easier adoption and effective execution.
